EXPERIENCE

Boston Children's Hospital

June 2025–Current

Program Coordinator I

- Developed custom software tools that enhance process improvement, automation, and optimization for BCH Pediatrics Emergency Medicine's administrative team operations.
- Identified areas where improvements can be made in order to increase efficiency or effectiveness.
- Ensured timely completion of project deliverables within budget constraints.
- Assisted in developing training materials and providing instruction on how to use them effectively.

Hamilton College

May 2024–May 2025

ERP Modernization Intern

- Assisted with the modernization of Hamilton College's ERP (Enterprise Resource Planning), providing a modern, intuitive, personalized, and accessible user experience, and delivering efficient self-service with simplified and consistent processes.
- Conducted interactive training classes and created instructional content to support the new Workday ERP system implementation.
- Participated in the hiring committee for a Workday Project Manager.
- Developed and maintained comprehensive documentation and content for the Hamilton College website.

Hamilton College

September 2022–May 2025

SiteManager Intern

- Technically maintained Hamilton College's website.
- Developed and delivered documentation and learning opportunities for Hamilton's Content Management System, SiteManager.
- Conducted SiteManager training and onboarding sessions for students and staff, teaching them how to create their own web pages on Hamilton College's website.

EDUCATION
